

LT WAKE 2010 Line up

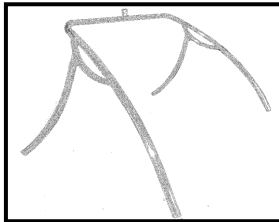

HOLESHOT GEN II

The Holeshot tower was developed with the rider in mind; Built with ridged 2.25 seamless 6061-T6 aluminum, this easy to install and fold down design has style and quality second to none, at a price you would only expect from LTWake.

ANODIZED COATING

LT2 GEN II

The LT2 Tower was developed to be stylish and sleek without compromising strength and functionality. This tower is made with same beefy tubing as the Holeshot and can be made to fit almost any boat with its adjustable swoop. You won't find a better priced tower than the LT2.

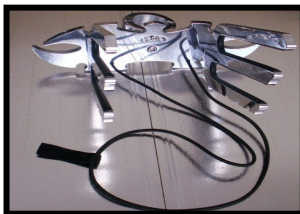

POLISHED OR BLACK.

LT WAKE towers are completely universal and can be made to fit almost any boat, from 76" - 106" and can be custom ordered to fit 60" - 106".

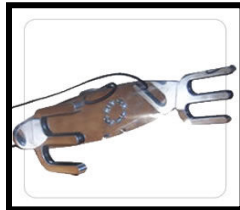

LTWAKE RACKS

LTWake offers 3 types of racks, wakeboard, ski and surf. The new Westcoast rack is the ultimate in style and functionality at a price you would only expect from LTWake.
